SUMMARY

Full Stack Developer specializing in the MERN stack and Next.js. Skilled in React.js, Node.js, Express.js, MongoDB, and REST APIs with a strong foundation in scalable application development. Currently a 5th-semester BSCS student, open to opportunities in full-stack, frontend, or backend development.

SKILLS

Frontend: ReactJS, Next.js, React Redux, HTML, CSS, JS, Bootstrap, Tailwind.css

Backend & Database Node.js, Express.js, MongoDB, SQL, RESTful API

Programming & Problem Solving: Data Structures & Algorithms, Problem Solving, Debugging, Leet Code 80+

Soft Skills: Communication, Team Collaboration, Time Management

Tools & Platforms: Git & GitHub, Postman, Netlify, Vercel, Firebase, Supabase, Cloudinary, PayPal, Stripe

Languages English, Urdu

EDUCATION

BS - Computer Science(CGPA 3.4+), University of Education, Lahore

Aug '23 — Present

Intermediate - ICS(Grade A+), Superior Group of Colleges

Aug '21 — Aug '23

PROJECTS

1: Shop Nest [Link](#)

- A comprehensive multi-vendor e-commerce marketplace supporting sellers and buyers with real-time interaction and secure payments.
- Supports product catalog with advanced filtering, shopping cart, wishlist, order tracking, and review system.
- Seller dashboards with analytics, coupon/discount management, and real-time messaging via Socket.io.
- Integrated Stripe & PayPal for secure payment processing and Cloudinary for optimized media storage.
- Role-based authentication & authorization with JWT and Bcrypt.
- **Tech Stack:** React.js, Redux Toolkit, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS, Socket.io, Stripe, PayPal, Cloudinary, JWT, Bcrypt

2: Real Estate: [Link](#)

- A property listing and management platform where individuals can post their estates for sale or rent, and buyers can search, filter, and explore available properties.
- Utilized **Redux Toolkit** for efficient and scalable global state management.
- Built a **responsive, modern UI** with **Tailwind CSS**, ensuring consistent design across all screen sizes.
- Built RESTful APIs with Node.js and Express, implemented MongoDB for data persistence, and added JWT-based authentication.
- **Tech Stack:** Frontend: React, Redux Toolkit, Tailwind CSS | Backend: Node.js, Express | DB: MongoDB | Deployment: Netlify & Vercel.

3: Sociopedia: [Link](#)

- A social media web app for user interaction through posts, likes, comments, and friend connections.
- Built a **social media web app** enabling users to register, create posts, like/comment, and manage friend connections.
- Designed a **professional and user-friendly interface** using **Material UI (MUI)** for responsiveness and consistency.
- Built RESTful APIs with Node.js and Express, implemented MongoDB for data persistence, and added JWT-based authentication.
- **Tech Stack:** Frontend: React, Redux Toolkit, Material UI | Backend: Node.js, Express | DB: MongoDB | Deployment: Netlify & Vercel.
